OBJECTIVE

Pre-final year B.Tech Computer Science and Business Systems student (2027) seeking a Software Development internship / full-time role. Proficient in Java, Object-Oriented Programming, Data Structures & Algorithms, DBMS, and full-stack REST API development using Spring Boot and Spring Security. Experienced in Agile SDLC, containerization with Docker, and independently deploying production applications. Have Knowledge of Basic Android Development.

EDUCATION

Asansol Engineering College (AEC)

B.Tech — Computer Science and Business Systems | Aug 2023 – 2027

SGPA: 8.88 / 10 | GDSC · Science Club

BNS DAV Public School, Giridih

Mar 2018 – Mar 2023

Class XII (CBSE): 83.5% | Class X (CBSE): 92.27%

Carmel Convent School, Giridih

Mar 2008 – Feb 2018

CERTIFICATIONS

JPMorgan Chase & Co. · Forage, May 2026

Software Engineering Job Simulation

Kafka · H2 · REST API Integration · REST API Controller

Data Structures & Algorithms

The Complete Masterclass for Data Structures and Algorithms · Udemy

Complete Kotlin Dev Masterclass · Udemy, March 2025

Complete Kotlin Development with Learning of Coroutines and Learning to use Android Studio · Udemy

Tata Data Visualisation · Forage, August 2025

Empowering Business with Effective Insights · Forage

TECHNICAL SKILLS

Languages: Java 17 · Python · Kotlin · C · C++ · JavaScript · SQL

Frameworks: Spring Boot · Spring MVC · Spring Security · Hibernate / JPA · React 19 · Flask · Jetpack Compose

Databases: PostgreSQL · MySQL · H2 · RDBMS · DBMS Concepts · SQL Queries & Schema Design

DevOps & Tools: Docker · Maven · Git · GitHub · Firebase · Apache Kafka · Android Studio · Vercel

Core Concepts: OOPs · DSA · DBMS · REST API Design · OAuth2 · JWT · Microservices · SDLC · Agile / Scrum

PROJECTS

SkillShare — Full Stack Skill Matching Platform

Jan 2025 – Present

Stack: Java · Spring Boot · Spring Security · OAuth2 · Hibernate/JPA · PostgreSQL · Docker · React 19 · Maven **Live:** skillshare-app-vercel-xv9i.vercel.app **Code:** github.com/PG300604/skillshare-app-vercel

- Architected a full-stack web application following Agile SDLC principles — from requirement analysis and OOP-based system design to multi-stage Dockerfile containerization and Vercel deployment; applied DSA in a Haversine geolocation engine with dynamic 10km→100km radius expansion to rank matches by proficiency score.
- Secured REST API using Spring Security as OAuth2 Resource Server with JWT/JWKS stateless authentication; implemented data access layer with Spring Data JPA + Hibernate ORM on PostgreSQL — demonstrated applied DBMS, SQL schema design, and Object-Oriented design patterns throughout.
- Containerized Spring Boot backend via multi-stage Dockerfile (Maven build stage + JRE Alpine runtime); built React 19 frontend (Vite) with real-time messaging, Framer Motion animations, and 3D UI (Three.js) — demonstrating end-to-end full-stack development capability.
- Followed complete Software Development Life Cycle (SDLC): requirement gathering, system design, OOP implementation, unit testing with H2 in-memory DB, containerized build, and production deployment — independently managed across all phases.

ACHIEVEMENTS & ACTIVITIES

- Mr. CSBS 2023 — Won personality and Communication competition at Asansol Engineering College; recognised for leadership, communication, and personality.
- Science Club Member — Active in Science Club of AEC ; participated and also conducted in technical workshops, hackathons, and peer coding sessions.
- House Captain & Commander — BNS DAV Public School; led public speaking, cricket events, and house management activities.
